

# MONSTER INDUSTRIAL MANHOLE

## Dig A Hole and You're Done

### Overview

The Monster Industrial Manhole (MIM) makes it easier to install a grinder in sewage lines. This fiberglass reinforced polyester (FRP) manhole has the exclusive Muffin Monster grinder that shreds troublesome solids and eliminates costly pump breakdowns. The Muffin Monster Manhole makes for quick installation. Simply dig a hole and lower the prefabricated fiberglass manhole into position in gravity fed sewer lines.

The M3 is customizable based on site requirements. The manhole diameter is 4' (1200 mm). The height, pipe size, and the type of top cover (traffic or hatch) are customizable.

### Features and Benefits

#### Dual Shafted Monster Industrial Grinder

- Low-speed, high-torque HYRDO grinder handles rags, rocks, wood, clothing, plastics and other debris
- JWCE exclusive immersible motor

#### Manhole

- Fiberglass Reinforced Polyester: high strength, water tight
- Manhole barrel thickness: 1/2" (12 mm)
- Manhole barrel diameter: 4' (1200 mm)
- Built in grit trap, traps grit before reaching grinder extending cutter life

#### Installation and Maintenance

- Factory-installed guide frame and access ladder make it easy to access the grinder
- Only maintenance is semi-annual inspection

### Applications

- Sewage Lines, Hospitals, Nursing Homes, Colleges, and many more
